SCIENCE AND RESEARCH

**The Scientific-Research Institute of
Experimental and Clinical Medicine**

Molecular Medicine Laboratory

Pathomorphological Laboratory

Science Foundation was established to support young scientists and prepare the new generation of researchers

The Scientific-Research Institute of Experimental and Clinical Medicine

In the Scientific-Research Institute of Experimental Clinical Medicine and Clinical Medicine experimental-type scientific research is being carried out and various research projects are planned to be implemented in the future. The institute consists of the scientific and auxiliary structural units, such as departments, laboratories, and a vivarium, which are constantly updated with new equipment and human resources.

Science Foundation

**Was established to support young
scientists and prepare the new
generation of researchers**

Molecular Medicine Laboratory

The research area of the Molecular Medicine Laboratory is the study of plant polyphenols and protein extracts and their effect on animal models. Plant extracts are used on lab animals, which have various diseases or pre-disease developments caused by chemically toxic substances.

Pathomorphological Laboratory

Subject of the research Pathomorphological Laboratory is pathomorphological examination of tissues excised from the organs of animal models and patients, using both macroscopic and microscopic methods.

STUDENT

SERVICES

Examination Center

Students have access to a state-of-the-art European Level Examination Center, which provides them with a calm and comfortable environment to take exams.

Student Service Center

For academic, administrative, ethical and everyday issues, students can contact the University's Student Services Center, where qualified specialists will consult with them in either Georgian or English.

Library

The library, with rich collection of printed and electronic materials, offers a variety of resources and services to its users, including learning and auxiliary spaces: a reading hall, archive, consultation, computer, and copy rooms.

Café

After productive study sessions, students can take a break and have something to eat at the university café, which provides quality food and service at a reasonable price.

RECOGNITION

MEMBERSHIP

PARTNERSHIP
